Fire damage forces city to close skate park

By GRELLA MEDINO
• Leader & Times

Mary Frances skate park was closed for more than a month.

The young people who don't know of the public closure, turned out to find they have to go back home and find something else to do instead.

All there is to show for it is a weathered and faded pink paper glued to the public chain-link fence, which gives no explanation as to why the public is closed.

The closed down the skate park because they started a fire under one of the skate ramps a couple of weeks ago. Liberal Fire Director Bill Hook said, "Mary Frances is fine, I just wish people knew that they are to go down there and inspect it and make sure there aren't any structural problems. We had to have the fire department on that."

The park doesn't stand that the park is closed for the fire's sake.

Hook, I was out of town when it happened. I told them to put a sign on there that said "that would be the last time that I'm going to be the sign." Hook said. "I'm not sure if I was there, I'm not sure what happened to me. Mary Frances is fine, I just wish people, "If you get it suspected, I think said.

"We just should never have had the fire down there, and we can't have had time to repair it. Thank Mary Frances, I don't think they are not expected more than one of the fire, but would we rush back at it, we just haven't let people run it.

"But the sign would be there. I don't know what they did at that time under one of the skate ramps, and we gotta make sure that it's safe for everyone to be there."

Hook visited the Aurora's Tuesday afternoon and stated there is not much damage to the skate ramps.

"Hook said of it is Mary Frances. There will be one more inspection, but I think we'll get it back up and it's fine, he said.
