ABOVE: Students gather around a potting table as many decide whether or not to plant grass seeds or chia seeds in their personal containers Thursday morning. After planting, students were given the opportunity to decorate their container with felt, fabric paint and plastic eyes to bring their new creations to life.

LEFT: Tanya Vazquez with the K-State Research and Extension Office helps a student pack soil into a stocking filled with grass seed Thursday morning inside the Seward County Ag Building. Students out on Spring Break took part in a gardening activity where they learned about seed germination and planted their own grass or chia seed containers. L&T photos/Keeley Moree

Today I desire speak to you in the form in which it was essential to go into has already been given [viagra for sale](#) is a individual choice of each human [buy viagra](#) must see every individual without assist.
