

No injuries when Grand Am T-BONES pickup

A wreck at the intersection of U.S. Highway 64 and NS 126 early Tuesday morning west of Forgan, Okla., occurred as a result of low visibility, a spokesperson from the Oklahoma Highway Patrol said. “Because of the fog, the driver of the 2006 Pontiac Grand Am four-door car did not see a stop sign and then T-boned the 2004 Ford pickup,” the spokesperson said. She added both drivers of the vehicles were uninjured and able to walk away from the accident. Daily Leader photo/Jessica Crawford
