- SWMC

Southwest Medical Center has announced its 2013 Community Health Fair will take place from 7 a.m. to noon on Saturday, Oct. 5, at the Seward County Activity Center in Liberal.

This annual event features a series of lab tests, including a comprehensive metabolic profile, lipid profile, thyroid screen and a complete blood count at a cost of \$35 per person. For an additional \$5, men can add PSA (prostate specific antigen) testing, which is recommended for men age 40 and older to test for signs of prostate cancer. Women may have a CEA (carcinoembryogenic antigen) screen for an additional \$5 to test for certain types of cancer. An HGB A1C (glycated hemoglobin) test is also available for \$5 to help monitor long-term glucose control. In addition to these tests, clinical breast exams, spirometry testing, pulse oximetry testing and blood pressure measurements will be offered free of charge at other Southwest Medical Center booths.
