For the past four years, in an effort to clean up the City of Liberal, the city has offered a free trip to the landfill on water bills going out in the spring. City officials do not want citizens to miss the valuable information they will be receiving on this month’s water bill. The bill itself will serve as the coupon that must be presented at the landfill – along with an ID. Many times in the past, the vouchers have not been utilized like city officials believe they should have. Many believe citizens are just simply not reading their bills. So during the month of May, make sure to check out water bills for the free trip to the landfill offered by the city in an effort to make Liberal a much cleaner place for everyone. Courtesy graphic
