The two-vehicle collision occurred on Highway 101 in the city of High Plains. The driver of the car, who was not named, was injured and taken to a local hospital. The driver of the van was not injured. The cause of the collision is still under investigation.

The truancy program, which has been in place for several years, has reported a significant decrease in the number of students who are absent without a valid excuse. The program provides support and resources for students who are struggling to attend school.

The annual Stamp Out Hunger food drive is currently in progress. The drive aims to collect non-perishable food items to be distributed to those in need. The drive will continue until the end of the month.

The Sons of Confederate Veterans are meeting to discuss the organization's activities and plans for the future. The meeting was held at a local community center and was attended by several members and guests.

The National Carriers organization is focused on ensuring the safety of children in vehicles. The organization has recently released a new set of guidelines for child car seats and booster seats. The guidelines emphasize the importance of proper installation and use.

The company is giving away 50 breast seats to celebrate Cinco de Mayo. The seats are being distributed to the community as a way to show appreciation for the Mexican people. The seats are available for free to anyone who needs them.
