Landfill fire lights up night sky

Several days after the fire broke out, the night sky over Lakewood, Colo., was lit up by a massive fire at a landfill. The fire, which started on June 18, is still burning and has caused significant damage to the surrounding area. The fire is located at the Lakewood Landfill, which is situated near the city of Lakewood. The fire is believed to have started from a pile of debris that had been left at the landfill. The fire is now under control, but the damage to the surrounding area is still being assessed.

NOON TUESDAY

Boost for cars or bust? Ethanol debate heats up

The debate over whether to boost ethanol production or restrict it is heating up. The U.S. House of Representatives is expected to vote on a bill that would restrict ethanol production. The bill would limit the amount of ethanol that can be produced in the United States. The bill is expected to pass in the House, but it is still unclear whether it will pass in the Senate. The bill is expected to be signed into law by President Obama.

Sorghum: Club seeking for queen congress

The Sorghum Club is seeking a queen congress. The club is a group of sorghum growers and enthusiasts. The club is looking for a queen congress to represent the club at the national level. The queen congress will be responsible for representing the club at various events and conferences. The club is currently accepting applications for the position of queen congress.

Super Moon

The Super Moon is visible in the night sky. The Super Moon is a full moon that is closer to Earth than a typical full moon. The Super Moon is visible in the night sky from June 23 to June 24. The Super Moon is a rare event that occurs once every 18 months. The Super Moon is a great time to view the moon and take photographs.
