Vision Team hopes for more community input

By MICHELE COLEMAN
A 120-member Vision Team is working to help the community understand the needs of the community and how to address them. The team is made up of people from all walks of life, including business, education, and government. They will be meeting with city officials and other community members to discuss their findings and recommendations.

Feds consider permit to drill on Kansas wetlands

By MICHELE COLEMAN
The U.S. Army Corps of Engineers is considering whether to issue a permit for a proposed drilling project on a wetland in Kansas. The project is part of a larger development and has raised concerns among local residents and environmental groups. The Corps is currently in the process of reviewing the permit application and will make a decision in the coming weeks.

Colorado woman in custody after killing suspected pedophile

By MICHELE COLEMAN
A Colorado woman is in custody after killing a suspected pedophile. The woman, who is currently being held in a local jail, is accused of shooting the man in the back of the head. The incident occurred in a public area and has shocked the community. Law enforcement is currently investigating the case and looking for any witnesses.

Kan. agencies warn of algae threat to hunting dogs

By MICHELE COLEMAN
Kansas agencies are warning hunters about a potential threat to their dogs. A type of algae has been found in some areas of the state, and it is known to be toxic to dogs. Hunters are advised to avoid areas where the algae is present and to keep their dogs away from any water sources that may be contaminated.

Justice Dept to sue North Carolina over voter law

By MICHELE COLEMAN
The U.S. Justice Department is preparing to sue North Carolina over its new voter ID law. The law requires voters to show a government-issued photo ID at the polls, and it has been widely criticized as a barrier to voting. The Justice Department argues that the law is unconstitutional and is in violation of federal voting rights laws.
