### Oklahoma City resident celebrates 113th birthday

**WEDNESDAY** — **JANUARY 1, 2014**  
**STILL MISSING!**  
REWARD \$1,000 + \$100,000 for information on the whereabouts of Dustin Lee 1847-1848-1849-1850-1851

The Oklahoma resident celebrated her 113th birthday on Wednesday, January 1, 2014. She is a member of the Oklahoma City Senior Center and has lived in Oklahoma City for over 80 years. She is survived by her husband, who passed away in 2008, and several children and grandchildren.

Ms. Stover turned 113 on Wed. at her home in Oklahoma City. Photo by Lisa C. Lippert for the Leader-Times.

### Home electricity use in US falling to 2001 levels

**BETTER HOPE**  
A report from the U.S. Energy Information Administration says that home electricity use in the United States has fallen to levels not seen since 2001. The report, which is the latest in a series of reports on energy trends, says that home electricity use has fallen by about 10 percent since 2007. This is due to a combination of factors, including the use of energy-efficient appliances and the recession.

**BETTER GADGETS**  
The report also notes that the use of energy-efficient appliances has increased significantly. This is due to the availability of more energy-efficient models and the growing awareness of the benefits of energy efficiency.

**ON THE OTHER HAND**  
While home electricity use has fallen, the report also notes that the use of energy-intensive appliances has increased. This is due to the availability of more energy-intensive models and the growing awareness of the benefits of energy efficiency.
