1/25/14 - The Kansas Supreme Court has upheld the homicide verdict against a man accused of murdering a woman in Hugoton, Kan. The court's decision in *State v. Hines* is a landmark ruling in the state's history.

The court ruled that the jury's verdict was supported by the evidence presented at trial. The defendant, Randy Hines, was charged with the first-degree murder of a woman in Hugoton in 2007. The jury found him guilty of first-degree murder and sentenced him to life in prison.

The state's attorney, Bill Hines, said the court's decision is a victory for the justice system. He said the jury's verdict was based on the evidence presented at trial and that the court's decision is a clear statement of the law.

The defense attorney, Susan Corbin, said she is disappointed in the court's decision. She said her client is innocent and that the jury's verdict was based on circumstantial evidence. She said she will appeal the court's decision.

**Gun fight: Smith & Wesson, Ruger quit California over stamping requirement**

1/25/14 - Smith & Wesson and Ruger have quit California over a new stamping requirement for handguns. The requirement would require manufacturers to stamp the serial number of each handgun on the slide.

The requirement is part of a new law that also requires manufacturers to stamp the serial number of each handgun on the frame. The law is intended to make it easier for law enforcement to identify and track handguns.

Smith & Wesson and Ruger have said that the requirement is too costly and that it would make their handguns less competitive in the market. They have said that they will continue to sell their handguns in California, but they will not stamp the serial number on the slide.

The law is set to take effect in January 2015. It is one of the most stringent handgun laws in the United States.
