### Safety tips for using propane, natural gases in homes

By Bill Brown  
Special to the Leader

Propane and other gases can be the great and efficient sources of energy and heat for people in their homes. However, it can be the foe if not used properly.

A fire safety expert says that the most common cause of gas-related fires in homes is the use of gas stoves. The expert says that the most common cause of gas-related fires in homes is the use of gas stoves. The expert says that the most common cause of gas-related fires in homes is the use of gas stoves.
